Dear Mr. Miller,

I would like to offer my congratulations and best wishes on being awarded Supply Chain Operations Reference Model (SCOR) Professional certification. Reaching this consistent standard for global excellence is an accomplishment to be commended. Productivity Engineering Services will join the nearly 1,000 successful organizations to evaluate and improve supply chain performance through the use of the Supply Chain Reference Model developed by the Supply-Chain Council.

Congratulations, again, on receiving the well deserved SCOR Professional certification award. I wish you continued success in your future goals and endeavors. Please do not hesitate to contact my office if I can ever assist you with anything in the future.

Sincerely,
